RESEARCH PROJECT EXPERIENCE

Present	Postdoctoral Researcher, Washington State Department of Natural Resources Adaptive Management Program: Working with project client to examine key problems contributing to dysfunction within the state Adaptive Management Program using Q methodology, document review, and semi-structured interviews. Team lead for Q methodology study design, coordination, execution, and analysis in collaboration with internal and external team members and partners.	
Present	Research Team Member, Center for Biological Diversity and University of California, Santa Barbara CONVIVA Grizzly Bear Reintroduction Research Team: This project uses Q methodology to examine perspectives of key stakeholders in the Sierra Nevada region of California on grizzly bear reintroduction and human-carnivore relations.	
2019-22	Postdoctoral Research Associate, Texas A&M University X-Grant, Pathways to Sustainable Urban Water Security: Desalination and Water Reuse in the 21 st Century (\$1.5 Million), Texas A&M University, College Station, TX: Worked as an interdisciplinary research team member to design and conduct a series of Q methodology studies examining desalination, water reuse, and sustainable urban water security. The project examined water governance and reuse regimes across six case study regions in Texas, California, Australia, and Israel. Project lead for Israel case study.	
2018	Board Member, Graduate Association of Food Studies: Re-designed and implemented membership survey for Graduate Association of Food Studies.	
2017-18	Co-Principle Investigator, National Science Foundation Doctoral Dissertation Improvement Grant #1656309, University of Georgia, Athens, GA: Designed and conducted mixed-methods research project using Q methodology, critical discourse analysis, and semi-structured interviews to evaluate farmer and residential perspectives on shale gas development in the Twin Tiers Region of PA/NY.	
2016	Field Research Assistant, Rocky Mountain National Park, Colorado: Assisted in field research and data collection in Rocky Mountain National Park for NSF DDRI grant #1633959: "Reconstruction of Alpine Aquatic Ecosystem Responses to Temperature Changes." Collected water samples and soil cores, assisted with soil core sectioning, and contributed to research and travel logistics.	
2015	Research Team Member, University of Georgia, Athens, GA: Conducted qualitative research project for the University of Georgia Geography Department using online surveys, semi-structured interviews, participant observation, and archival research to evaluate the GEOG 8900: Proseminar course for first year graduate students.	
2012-14	Food Systems Research Assistant, Chatham University Food Studies Department, Pittsburgh, PA: Managed resources and developed information related to local and regional food system partnerships, food and agriculture resources, farms, food processing, production sites, distribution, and service.	
2014	Consultant, 52 nd Street Market, Pittsburgh, PA: Designed and implemented community food assessment survey for the Upper Lawrenceville neighborhood.	
2013	Intern, Pittsburgh Food Policy Council, Pittsburgh, PA: Conducted six Rapid Market Assessments for City of Pittsburgh farmers markets; wrote 2013 "Produce Change" Grant report.	
2013	Research Team Member, Chatham University, Pittsburgh, PA: Conducted community-based research project with Burgh Bees using ethnographic interviews, focus groups, and participant observation to identify barriers for urban beekeepers in Pittsburgh.
